Vitamin Drip IV Therapy Options

During your consultation, Caroline will review your medical history to determine the course of your treatment and which vitamin drip therapy will best suit your personal needs. Most patients will see immediate results after only a few hours. Some patients who struggle with certain chronic and physical conditions may need multiple treatments to achieve and maintain their results.

The Ultimate

-Glutathione- Aids liver in detoxification. Protects skin and eyes from free radicals. Decreases inflammation. Enhances immune response. Preserves the brain and other body tissues.

Brain Clarity

-Taurine & B Vitamins- Improves overall mental clarity. Boosts brain function. Helps reduce anxiety. Enhances production of neurotransmitters. Increases energy.

Lipoblast

-L-Carnitine, Methionine & Choline- Boosts energy and metabolism. Provides added nutrients to help reduce stubborn fat.

Migraine Eraser

-Magnesium & B Vitamins- Helps the body fight pain and nausea.

Thyroid Health

-Ascorbic Acid, Selenium & Zinc- Helps increase thyroid hormone production, decrease hypothyroid symptoms. Protects and preserves thyroid function.

Immune Boost

-Vitamins B, C & Glutathione- Helps keep common illnesses at bay. Reduces downtime from sickness.

The After Party

-B Vitamins and Minerals- Hydrates and boosts vitamins and minerals that were depleted the night before.

IV of Youth

-High Doses Vitamin C and Glutathione- Promotes collagen production. Helps maintain skin's youthful vitality and elasticity. Restores radiance. Promotes healing.

Nutrient Replenisher

-Vitamins and Micronutrients- Ultra-hydrating energy booster. Replenishes vitamins and minerals. Perfect first time cocktail.
